

# SILVER OAK ESTATE

## Property Information Dossier

A synthetic, deliberately information-rich real-estate document created for testing document ingestion, OCR, extraction, classification, entity resolution, tables, dates, addresses, financial values, and cross-page consistency.

|                  |                               |
|------------------|-------------------------------|
| Document ID      | RE-TEST-2026-00817            |
| Property         | Silver Oak Estate             |
| Location         | Balasore, Odisha, India       |
| Prepared         | 17 August 2026                |
| Document Version | 1.0                           |
| Purpose          | Synthetic application testing |

**IMPORTANT:** All names, registration numbers, financial figures, coordinates, legal references, contacts, and project facts in this document are fictional and intended only for software testing.

# 1. Executive Summary

Silver Oak Estate is a fictional mixed-use residential development proposed on a 6.42-acre freehold parcel in Chandipur Road, Balasore, Odisha. The development comprises four residential towers, a neighbourhood retail block, landscaped open areas, internal roads, parking, a clubhouse, utility infrastructure, and security facilities.

The project contains 312 apartments across one-, two-, three-, and four-bedroom configurations and 38 retail units. The indicative development schedule targets substantial completion in December 2028 and possession beginning in March 2029, subject to statutory approvals, construction progress, utility connections, and other customary conditions.

| Key Metric          | Value                       |
|---------------------|-----------------------------|
| Land area           | 6.42 acres                  |
| Residential towers  | 4                           |
| Residential units   | 312                         |
| Retail units        | 38                          |
| Total built-up area | 41,860 sq. m.               |
| Parking             | 418 cars + 620 two-wheelers |
| Target completion   | December 2028               |
| Target possession   | March 2029                  |

## 2. Property Identification

The following identity fields are intentionally repeated in slightly different formats throughout the dossier so that extraction systems can be tested for normalization and conflict detection.

| Field         | Primary Value                              | Alternate / Display Value            |
|---------------|--------------------------------------------|--------------------------------------|
| Property name | Silver Oak Estate                          | Silver Oak Estate                    |
| Project name  | Silver Oak Residences & Retail             | Silver Oak Residences and Retail     |
| Developer     | Asteria Habitat Developers Private Limited | Asteria Habitat Developers Pvt. Ltd. |
| Registration  | OR/BLR/2024/01987                          | OR-BLR-2024-01987                    |
| PIN           | 756001                                     | 756 001                              |
| Land area     | 6.42 acres                                 | 25,978 sq. m.                        |
| Status        | Under development                          | Construction in progress             |

Extraction challenge: the document contains both abbreviated and expanded company names, multiple unit systems, and formatted identifiers.

### 3. Address and Location

**Registered project address:** Plot Nos. 117/2, 118/1 and 119/3, Chandipur Road, Balasore, Odisha 756001, India.

| Location Attribute     | Value                     |
|------------------------|---------------------------|
| District               | Balasore                  |
| State                  | Odisha                    |
| Country                | India                     |
| PIN code               | 756001                    |
| Road                   | Chandipur Road            |
| Plot numbers           | 117/2; 118/1; 119/3       |
| Latitude               | 21.4948° N                |
| Longitude              | 86.9317° E                |
| Approx. site elevation | 18 m above mean sea level |

The project is described as being within the urban growth corridor of Balasore. Distances stated in this dossier are indicative synthetic values and should not be interpreted as surveyed measurements.

## 4. Site Characteristics

| Parameter           | Description                                                          |
|---------------------|----------------------------------------------------------------------|
| Site area           | 6.42 acres / approximately 25,978 sq. m.                             |
| Site shape          | Irregular quadrilateral with two primary road frontages              |
| North boundary      | Existing low-rise residential plots                                  |
| South boundary      | Chandipur Road                                                       |
| East boundary       | Institutional parcel and service lane                                |
| West boundary       | Mixed residential and small commercial plots                         |
| Topography          | Generally level with gentle south-east drainage                      |
| Soil assumption     | Sandy clay / lateritic mixed soil; final geotechnical design governs |
| Flood consideration | Finished floor levels designed above preliminary drainage reference  |

The site plan concept reserves approximately 32% of gross land area for circulation, landscape, utilities, setbacks, and common infrastructure.

## 5. Land Title and Ownership

The synthetic title chain describes a freehold parcel assembled from three adjoining plot records. The ownership narrative is included to test extraction of names, dates, document numbers, and relationships between source records.

| Record                | Date        | Reference     | Party / Description                              |
|-----------------------|-------------|---------------|--------------------------------------------------|
| Original sale deed    | 12 Feb 2008 | SD-2008-4419  | Transfer to first recorded private owner         |
| Mutation order        | 21 Apr 2008 | MUT-2008-772  | Revenue record update                            |
| Conveyance deed       | 07 Jun 2018 | CD-2018-11904 | Transfer to Asteria Habitat Developers Pvt. Ltd. |
| Mutation certificate  | 19 Jul 2018 | MC-2018-3342  | Developer recorded as current holder             |
| Development agreement | 03 Jan 2024 | DA-2024-018   | Internal project development instrument          |

Synthetic note: no real title search has been performed. This section exists to simulate title documents and legal metadata.

## 6. Encumbrances and Search Summary

A fictional encumbrance search is represented below. Extraction systems should distinguish between a clean status, historical records, and conditional security interests.

| Search Item         | Result                          | Remarks                                       |
|---------------------|---------------------------------|-----------------------------------------------|
| Registered mortgage | None recorded as of 30 Jun 2026 | Synthetic search result                       |
| Court attachment    | None found                      | Synthetic search result                       |
| Lease registered    | None                            | Except unit-level future leases               |
| Development charge  | Applicable                      | Included in project cost model                |
| Bank security       | Conditional                     | Project finance facility described on page 18 |
| Litigation flag     | No known matter                 | Synthetic declaration                         |

Important extraction terms: encumbrance, mortgage, attachment, lease, charge, security interest, litigation, search date.

## 7. Approvals and Statutory Status

| Approval / Permission        | Reference        | Date        | Status      |
|------------------------------|------------------|-------------|-------------|
| Development permission       | DP/BLR/2024/611  | 18 Mar 2024 | Granted     |
| Building plan approval       | BPA/BLR/2024/982 | 09 Sep 2024 | Granted     |
| Fire concept clearance       | FCC/2025/118     | 14 Jan 2025 | Granted     |
| Environmental consent        | EC/OD/2025/402   | 22 May 2025 | Granted     |
| Water connection application | WCA/2026/077     | 16 Feb 2026 | In process  |
| Electrical load sanction     | ELS/2026/231     | 03 Apr 2026 | Provisional |
| Occupancy certificate        | Not yet issued   | —           | Future      |

The approval references are fictional. The project remains subject to applicable laws, regulations, technical approvals, and final certification.

## 8. Development Program

| Component          | Quantity | Built-up / Allocated Area | Notes             |
|--------------------|----------|---------------------------|-------------------|
| Tower A            | 1        | 9,860 sq. m.              | Residential       |
| Tower B            | 1        | 9,940 sq. m.              | Residential       |
| Tower C            | 1        | 9,780 sq. m.              | Residential       |
| Tower D            | 1        | 9,610 sq. m.              | Residential       |
| Retail block       | 1        | 2,670 sq. m.              | 38 shops          |
| Clubhouse          | 1        | 1,240 sq. m.              | Common amenity    |
| Utility / services | —        | 760 sq. m.                | Plant and support |

The component figures are intentionally rounded and may not sum to the gross site area because built-up area and land area are different measures.

## 9. Residential Unit Mix

| Configuration | Units | Typical Carpet Area | Typical Saleable Area | Indicative Base Price |
|---------------|-------|---------------------|-----------------------|-----------------------|
| 1 BHK         | 72    | 48–55 sq. m.        | 68–78 sq. m.          | ■48–56 lakh           |
| 2 BHK         | 144   | 72–82 sq. m.        | 101–118 sq. m.        | ■72–89 lakh           |
| 3 BHK         | 84    | 104–118 sq. m.      | 146–166 sq. m.        | ■1.08–1.34 crore      |
| 4 BHK         | 12    | 154–168 sq. m.      | 214–236 sq. m.        | ■1.65–1.98 crore      |
| Total         | 312   | —                   | —                     | —                     |

Pricing is indicative and synthetic. Taxes, registration, statutory charges, parking, floor-rise premiums, preferential-location charges, maintenance deposits, and other applicable charges may be additional.

## 10. Sample Unit Schedule

A partial unit schedule is included to test row extraction, repeated identifiers, status classification, and numerical fields.

| Unit     | Tower | Floor | Type  | Carpet     | Status        |
|----------|-------|-------|-------|------------|---------------|
| A-03-001 | A     | 3     | 2 BHK | 78 sq. m.  | Reserved      |
| A-04-002 | A     | 4     | 2 BHK | 78 sq. m.  | Available     |
| A-05-003 | A     | 5     | 3 BHK | 112 sq. m. | Sold - sample |
| A-06-004 | A     | 6     | 3 BHK | 112 sq. m. | Available     |
| A-02-005 | A     | 2     | 1 BHK | 52 sq. m.  | Available     |
| B-03-006 | B     | 3     | 2 BHK | 78 sq. m.  | Reserved      |
| B-04-007 | B     | 4     | 2 BHK | 78 sq. m.  | Available     |
| B-05-008 | B     | 5     | 3 BHK | 112 sq. m. | Sold - sample |
| B-06-009 | B     | 6     | 3 BHK | 112 sq. m. | Available     |
| B-02-010 | B     | 2     | 1 BHK | 52 sq. m.  | Available     |
| C-03-011 | C     | 3     | 2 BHK | 78 sq. m.  | Reserved      |
| C-04-012 | C     | 4     | 2 BHK | 78 sq. m.  | Available     |
| C-05-013 | C     | 5     | 3 BHK | 112 sq. m. | Sold - sample |
| C-06-014 | C     | 6     | 3 BHK | 112 sq. m. | Available     |
| C-02-015 | C     | 2     | 1 BHK | 52 sq. m.  | Available     |
| D-03-016 | D     | 3     | 2 BHK | 78 sq. m.  | Reserved      |
| D-04-017 | D     | 4     | 2 BHK | 78 sq. m.  | Available     |
| D-05-018 | D     | 5     | 3 BHK | 112 sq. m. | Sold - sample |
| D-06-019 | D     | 6     | 3 BHK | 112 sq. m. | Available     |
| D-02-020 | D     | 2     | 1 BHK | 52 sq. m.  | Available     |

The remaining units follow the same tower/floor numbering logic but are omitted from this sample schedule.

## 11. Building Dimensions and Floor Planning

| Tower | Floors | Height | Typical Floor Plate | Units/Floor |
|-------|--------|--------|---------------------|-------------|
| A     | G + 18 | 63.8 m | 548 sq. m.          | 18          |
| B     | G + 18 | 63.8 m | 552 sq. m.          | 18          |
| C     | G + 18 | 63.8 m | 544 sq. m.          | 18          |
| D     | G + 18 | 63.8 m | 536 sq. m.          | 18          |

Ground floors include lobbies, services, parking access, and selected amenity functions. Residential floors contain a mixture of corner and internal apartments with varying balcony configurations.

## 12. Apartment Specifications

| Item           | Specification                                                          |
|----------------|------------------------------------------------------------------------|
| Structure      | Reinforced concrete framed structure designed to applicable codes      |
| External walls | AAC blocks / equivalent lightweight masonry                            |
| Internal walls | Plastered masonry or gypsum partitions where specified                 |
| Flooring       | Vitrified tiles in living/dining; anti-skid tiles in wet areas         |
| Kitchen        | Granite/quartz counter, stainless-steel sink, provision for appliances |
| Bathrooms      | Ceramic wall tiles, sanitary fixtures, exhaust provision               |
| Doors          | Engineered main door; laminated internal doors                         |
| Windows        | Powder-coated aluminium/uPVC glazing                                   |
| Electrical     | Concealed copper wiring with modular switches                          |
| Internet       | Structured conduit / fibre-ready provisions                            |
| Water          | CP fittings and metered supply to apartments                           |

Exact finishes may vary by unit type, inventory package, approved sample, and final procurement.

## 13. Amenities

| Amenity                  | Approx. Area / Capacity | Location               |
|--------------------------|-------------------------|------------------------|
| Clubhouse                | 1,240 sq. m.            | Central landscape zone |
| Swimming pool            | 25 m x 10 m             | Clubhouse precinct     |
| Gymnasium                | 110 sq. m.              | Clubhouse level 1      |
| Multipurpose hall        | 180 persons             | Clubhouse              |
| Children's play area     | 620 sq. m.              | North landscape        |
| Senior citizens' seating | 3 zones                 | Landscape              |
| Jogging path             | 640 m loop              | Perimeter              |
| Co-working lounge        | 85 seats                | Clubhouse              |
| Retail plaza             | 38 units                | South frontage         |

## 14. Parking and Mobility

| Parking Type          | Count | Allocation           |
|-----------------------|-------|----------------------|
| Covered car spaces    | 286   | Residential          |
| Open car spaces       | 96    | Visitors / overflow  |
| Accessible car spaces | 18    | Near primary lobbies |
| EV-ready car spaces   | 42    | Electrical provision |
| Two-wheeler spaces    | 620   | Residential + retail |
| Bicycle spaces        | 84    | Common facilities    |

Parking allocation is subject to final allotment rules. EV charging points may be activated in phases based on demand and electrical capacity.

## 15. Infrastructure and Utilities

| System               | Design / Capacity     | Notes                                    |
|----------------------|-----------------------|------------------------------------------|
| Water storage        | 310 KL                | Domestic + fire reserve segregated       |
| STP                  | 220 KLD               | Treated water for landscaping / flushing |
| Rainwater harvesting | 4 recharge structures | Roof and paved runoff                    |
| DG backup            | 2 x 750 kVA           | Essential/common loads                   |
| Transformer capacity | 2 x 1000 kVA          | Initial sanctioned configuration         |
| Solar PV             | 180 kWp               | Common-area generation                   |
| Solid waste          | Segregated collection | Wet/dry/recyclable streams               |
| Fire water tank      | 300 KL                | Dedicated fire reserve                   |

## 16. Construction Status

| Work Package      | Planned Start | Actual / Forecast Finish | Progress as of 31 Jul 2026 |
|-------------------|---------------|--------------------------|----------------------------|
| Site enabling     | Apr 2024      | Oct 2024                 | 100%                       |
| Foundation        | Oct 2024      | Aug 2025                 | 100%                       |
| Tower A structure | Jan 2025      | Jun 2027                 | 46%                        |
| Tower B structure | Mar 2025      | Aug 2027                 | 39%                        |
| Tower C structure | Jun 2025      | Oct 2027                 | 31%                        |
| Tower D structure | Aug 2025      | Dec 2027                 | 26%                        |
| MEP works         | Nov 2025      | Sep 2028                 | 18%                        |
| Finishes          | Jan 2027      | Nov 2028                 | 6%                         |

Progress figures are synthetic estimates prepared solely to provide realistic extraction targets.

## 17. Financial Overview

| Financial Item                        | Amount       |
|---------------------------------------|--------------|
| Indicative gross development value    | ■312.6 crore |
| Land acquisition / land value         | ■46.0 crore  |
| Construction budget                   | ■138.5 crore |
| Infrastructure & external development | ■21.8 crore  |
| Professional / approval costs         | ■12.4 crore  |
| Marketing & sales                     | ■9.6 crore   |
| Contingency                           | ■10.7 crore  |
| Estimated total project cost          | ■239.0 crore |
| Indicative finance requirement        | ■72.0 crore  |

Currency: Indian Rupees (INR). Amounts are fictional. 'Crore' means ten million Indian rupees.

## 18. Sample Apartment Payment Schedule

| Milestone                 | Percentage | Example on ■1,00,00,000 Base Price |
|---------------------------|------------|------------------------------------|
| Booking / application     | 10%        | ■10,00,000                         |
| Agreement execution       | 10%        | ■10,00,000                         |
| Foundation completion     | 10%        | ■10,00,000                         |
| Structure completion      | 15%        | ■15,00,000                         |
| Brickwork / MEP milestone | 15%        | ■15,00,000                         |
| Plastering                | 10%        | ■10,00,000                         |
| Flooring / finishing      | 10%        | ■10,00,000                         |
| Internal completion       | 5%         | ■5,00,000                          |
| Possession / handover     | 15%        | ■15,00,000                         |
| Total                     | 100%       | ■1,00,00,000                       |

This schedule is a synthetic example and does not constitute a commercial offer or contractual payment demand.

## 19. Sample Buyer Cost Sheet

| Charge                        | Example Amount | Tax / Note                                   |
|-------------------------------|----------------|----------------------------------------------|
| Base apartment price          | ■1,00,00,000   | Illustrative                                 |
| Floor-rise premium            | ■3,50,000      | Illustrative                                 |
| Preferred-location charge     | ■2,00,000      | Illustrative                                 |
| Parking                       | ■4,00,000      | Illustrative                                 |
| Club / amenities contribution | ■1,25,000      | Illustrative                                 |
| Maintenance deposit           | ■1,50,000      | Illustrative                                 |
| Statutory taxes               | As applicable  | Rate depends on applicable law               |
| Registration / stamp duty     | As applicable  | Buyer responsibility unless stated otherwise |
| Estimated pre-tax total       | ■1,12,25,000   | Illustrative                                 |

## 20. Project Finance and Banking

| Facility              | Amount             | Lender / Status                                   |
|-----------------------|--------------------|---------------------------------------------------|
| Construction facility | ■72 crore          | Fictional scheduled bank; sanctioned in principle |
| Working capital line  | ■8 crore           | Fictional bank; available subject to conditions   |
| Escrow account        | Project-specific   | Collections routed per project finance terms      |
| Security package      | Land + receivables | Subject to executed finance documents             |

The finance details are intentionally structured to test extraction of monetary values, facility types, lender fields, and security descriptions.

## 21. Market Comparables

| Comparable              | Location       | Unit Type | Indicative Price    | Distance         |
|-------------------------|----------------|-----------|---------------------|------------------|
| Harbour View Residences | Balasore East  | 2 BHK     | ■78–92 lakh         | 3.2 km           |
| Coastal Greens          | Sahadevkhunta  | 3 BHK     | ■1.05–1.28 crore    | 4.1 km           |
| Blue Horizon Enclave    | Motiganj       | 2 BHK     | ■69–84 lakh         | 5.0 km           |
| Cedar Heights           | Remuna Road    | 3 BHK     | ■98 lakh–1.20 crore | 6.4 km           |
| Silver Oak Estate       | Chandipur Road | 2 BHK     | ■72–89 lakh         | Subject property |

All comparable project names and values are fictional.

## 22. Indicative Rental Analysis

| Unit  | Monthly Rent   | Annual Rent     | Indicative Yield on ■90L |
|-------|----------------|-----------------|--------------------------|
| 1 BHK | ■15,000–18,000 | ■1.80–2.16 lakh | 2.0–2.4%                 |
| 2 BHK | ■22,000–28,000 | ■2.64–3.36 lakh | 2.9–3.7%                 |
| 3 BHK | ■30,000–38,000 | ■3.60–4.56 lakh | 3.0–4.0%                 |
| 4 BHK | ■42,000–52,000 | ■5.04–6.24 lakh | Illustrative             |

Rental estimates are synthetic and exclude vacancy, maintenance, taxes, brokerage, furnishing, financing costs, and other expenses.

## 23. Indicative Valuation

A simplified valuation worksheet is provided for extraction testing. It intentionally mixes unit rates, total values, and assumptions.

| Approach           | Key Assumption                    | Indicative Value |
|--------------------|-----------------------------------|------------------|
| Comparable sales   | ■7,950/sq. ft. equivalent         | ■304 crore       |
| Cost approach      | Replacement cost less adjustments | ■247 crore       |
| Income approach    | Stabilized rental capitalization  | ■218 crore       |
| Blended indication | Weighted synthetic estimate       | ■276 crore       |

The figures are not a professional valuation and should not be relied upon for lending, investment, taxation, accounting, or transaction decisions.

## 24. Property Risk Register

| Risk                        | Likelihood | Impact | Mitigation                                  |
|-----------------------------|------------|--------|---------------------------------------------|
| Construction delay          | Medium     | High   | Schedule controls and contractor monitoring |
| Approval delay              | Low–Medium | High   | Early submission and authority coordination |
| Material price escalation   | Medium     | Medium | Procurement contracts and contingency       |
| Interest-rate increase      | Medium     | Medium | Staggered drawdowns / hedging assessment    |
| Sales absorption below plan | Medium     | High   | Phased releases and channel strategy        |
| Water availability          | Low        | High   | Storage, recycling and dual-source planning |
| Extreme rainfall            | Medium     | Medium | Drainage and finished-level design          |

## 25. Insurance and Coverage

| Policy                            | Insured / Limit               | Period        | Status                      |
|-----------------------------------|-------------------------------|---------------|-----------------------------|
| Contractor all risk               | ■145 crore                    | 2025–2028     | Proposed                    |
| Third-party liability             | ■10 crore                     | Annual        | Proposed                    |
| Workmen compensation              | Per applicable requirement    | Annual        | Active / contractor-managed |
| Equipment insurance               | ■6.5 crore                    | Annual        | Proposed                    |
| Property insurance after handover | To be arranged by association | Post-handover | Future                      |

Policy information is synthetic. Coverage terms, exclusions, deductibles and insured values must be confirmed against executed policies.

## 26. Tax and Statutory Cost Fields

| Item             | Treatment / Field                                              |
|------------------|----------------------------------------------------------------|
| GST              | Applicable rate depends on transaction type and prevailing law |
| Stamp duty       | State-specific; buyer / seller allocation per contract         |
| Registration fee | Applicable according to prevailing schedule                    |
| Property tax     | Payable after applicable assessment / handover                 |
| Maintenance      | Collected as per association / facility management arrangement |
| Utility deposits | May be collected based on final connection requirements        |
| TDS              | Buyer to comply where legally applicable                       |

This page is intended to test extraction of tax names and conditional phrases rather than provide tax advice.

## 27. Retail Units and Commercial Terms

| Retail Category       | Units | Typical Area  | Indicative Base Rent  |
|-----------------------|-------|---------------|-----------------------|
| Convenience / grocery | 4     | 80–120 sq. m. | ■160–190/sq. m./month |
| Food & beverage       | 8     | 45–90 sq. m.  | ■190–240/sq. m./month |
| Services              | 12    | 35–70 sq. m.  | ■150–190/sq. m./month |
| Professional office   | 8     | 40–80 sq. m.  | ■145–175/sq. m./month |
| General retail        | 6     | 50–95 sq. m.  | ■165–210/sq. m./month |

Retail leasing terms may include security deposit, escalation, common-area maintenance, fit-out period, lock-in, and revenue-sharing provisions.

## 28. Facilities Management

| Function          | Scope                                                  |
|-------------------|--------------------------------------------------------|
| Security          | 24x7 gate control, visitor management, CCTV monitoring |
| Housekeeping      | Common areas, lobbies, amenities, washrooms            |
| Landscape         | Garden maintenance, irrigation, pruning                |
| MEP               | Preventive and corrective maintenance                  |
| STP               | Operation, testing and sludge management               |
| Fire systems      | Inspection, drills, testing and statutory records      |
| Helpdesk          | Resident tickets and service requests                  |
| Vendor management | AMC, SLA tracking and purchase orders                  |

## 29. Utility Consumption Forecast

| Utility                 | Peak / Design  | Annual Estimate | Unit          |
|-------------------------|----------------|-----------------|---------------|
| Electricity             | 2.1 MW         | 3.85 GWh        | MWh / year    |
| Water                   | 310 KL storage | 71,000 KL       | KL / year     |
| STP treated water reuse | 220 KLD plant  | 48,000 KL       | KL / year     |
| Diesel backup           | 1,500 L tank   | 18,000 L        | L / year      |
| Solid waste             | 1.1 tonnes/day | 402 tonnes      | tonnes / year |

### 30. Sustainability Features

| Feature              | Target / Detail                          |
|----------------------|------------------------------------------|
| Solar PV             | 180 kWp common-area generation           |
| LED lighting         | 100% common-area LED specification       |
| Rainwater harvesting | Roof and paved runoff capture            |
| STP reuse            | Landscape and flushing applications      |
| Low-flow fixtures    | Target reduction in potable demand       |
| EV readiness         | 42 car spaces with electrical provision  |
| Tree planting        | Approximately 180 new trees              |
| Waste segregation    | Wet, dry, recyclable and e-waste streams |

Sustainability claims are project targets for testing purposes and do not represent certification.

### 31. Security and Access Control

The security design uses multiple access zones: main vehicle entry, service entry, pedestrian lobby access, retail entry, and emergency access. A synthetic identity and event model is included for extraction testing.

| Control            | Description                                        |
|--------------------|----------------------------------------------------|
| Gate access        | RFID / ANPR-ready vehicle entry                    |
| Visitor management | Mobile / kiosk registration with OTP               |
| CCTV               | Approximately 126 cameras across common areas      |
| Lift access        | Tower-specific floor access controls               |
| Emergency          | Fireman override and emergency communication       |
| Retail segregation | Independent retail access outside residential core |

## 32. Sample Legal / Commercial Clauses

**1. Information accuracy.** Marketing material, drawings, specifications and dimensions may be revised where required by statutory authorities, engineering constraints, procurement conditions, or design development.

**2. Area measurement.** Carpet area, built-up area and saleable area are separate concepts. Final contractual area shall be governed by the executed agreement and applicable regulations.

**3. Possession.** Target dates are indicative unless expressly stated otherwise in the executed agreement.

**4. Force majeure.** Delays caused by events beyond reasonable control may affect construction and possession timelines.

**5. Payment default.** Late payments may attract charges and contractual remedies as specified in the executed agreement.

**6. Dispute resolution.** Any dispute shall be handled according to the executed contractual documents and applicable law.

This page is a synthetic legal-text sample and is not a legal instrument.

### 33. Stakeholders and Contacts

| Role                  | Organization                         | Contact Name | Contact                 |
|-----------------------|--------------------------------------|--------------|-------------------------|
| Developer             | Asteria Habitat Developers Pvt. Ltd. | Rohan Sen    | projects@example.test   |
| Project Director      | Asteria Habitat Developers Pvt. Ltd. | Meera Nair   | director@example.test   |
| Architect             | Northline Design Studio              | Arjun Rao    | studio@example.test     |
| Structural Consultant | Vertex Structures                    | K. Banerjee  | structures@example.test |
| PMC                   | BuildTrack Project Services          | N. Mishra    | pmc@example.test        |
| Legal Counsel         | CivicLex Advisory                    | S. Das       | legal@example.test      |
| Facilities Manager    | Silver Oak FM Services               | P. Mohanty   | fm@example.test         |

The .test email domain is used intentionally to prevent these addresses from being treated as real contact information.

### 34. Document Register

| Doc ID  | Document                   | Date        | Status       |
|---------|----------------------------|-------------|--------------|
| DOC-001 | Master Site Plan           | 18 Mar 2024 | Approved     |
| DOC-002 | Building Plan Set          | 09 Sep 2024 | Approved     |
| DOC-003 | Fire Safety Concept        | 14 Jan 2025 | Approved     |
| DOC-004 | Environmental Consent      | 22 May 2025 | Approved     |
| DOC-005 | Geotechnical Report        | 02 Nov 2024 | Issued       |
| DOC-006 | Structural Design Basis    | 15 Jan 2025 | Issued       |
| DOC-007 | MEP Design Basis           | 12 Feb 2025 | Issued       |
| DOC-008 | Project Finance Term Sheet | 06 Apr 2026 | Confidential |
| DOC-009 | Sales Specification        | 30 Jun 2026 | Current      |

## 35. Inspection and Quality Log

| Date        | Inspection             | Finding                   | Action               |
|-------------|------------------------|---------------------------|----------------------|
| 12 Feb 2026 | Concrete cube test     | Within specified range    | Closed               |
| 21 Mar 2026 | Rebar inspection       | Minor cover correction    | Rectified            |
| 17 Apr 2026 | Waterproofing mock-up  | Joint detailing revised   | Closed               |
| 09 May 2026 | Fire piping inspection | Supports adjusted         | Closed               |
| 14 Jun 2026 | Electrical containment | Route conflict identified | Resolved             |
| 28 Jul 2026 | Safety audit           | Housekeeping observations | Open — target 10 Aug |

This log intentionally contains one open item to test status extraction.

### 36. Sample Transaction Record

| Field              | Value                                      |
|--------------------|--------------------------------------------|
| Transaction ID     | SOE-TXN-000184                             |
| Unit               | B-09-117                                   |
| Configuration      | 3 BHK                                      |
| Carpet area        | 112 sq. m.                                 |
| Saleable area      | 158 sq. m.                                 |
| Base consideration | ■1,22,50,000                               |
| Parking            | ■4,00,000                                  |
| Other charges      | ■2,75,000                                  |
| Tax                | As applicable                              |
| Agreement date     | 18 July 2026                               |
| Payment status     | First three milestones received            |
| Outstanding        | ■61,25,000 before applicable taxes/charges |

This transaction is entirely fictional and should be treated as test data.

### 37. Extraction Test Matrix

| Entity Type | Examples to Extract                                                       |
|-------------|---------------------------------------------------------------------------|
| Property    | Silver Oak Estate                                                         |
| Company     | Asteria Habitat Developers Private Limited                                |
| Address     | Plot Nos. 117/2, 118/1 and 119/3, Chandipur Road, Balasore, Odisha 756001 |
| Identifier  | OR/BLR/2024/01987                                                         |
| Coordinates | 21.4948° N, 86.9317° E                                                    |
| Area        | 6.42 acres; 25,978 sq. m.; 41,860 sq. m.                                  |
| Money       | ■312.6 crore; ■239.0 crore; ■1,22,50,000                                  |
| Dates       | 12 Feb 2008; 18 Jul 2026; Dec 2028; Mar 2029                              |
| Quantity    | 312 apartments; 38 retail units; 418 car spaces                           |
| Status      | Granted; In process; Provisional; Open; Available                         |
| Person      | Rohan Sen; Meera Nair; Arjun Rao                                          |

Suggested test objectives: OCR, table extraction, named-entity recognition, address parsing, date normalization, currency normalization, unit conversion, duplicate detection, document classification, and cross-page consistency checks.

### 38. Cross-Page Consistency Checks

The document intentionally contains related values that should be reconciled by an extraction platform.

| Check                | Expected Relationship                                                                         |
|----------------------|-----------------------------------------------------------------------------------------------|
| Residential unit mix | $72 + 144 + 84 + 12 = 312$ units                                                              |
| Tower count          | $A + B + C + D = 4$ residential towers                                                        |
| Retail count         | 38 retail units                                                                               |
| Car parking          | $286 + 96 + 18 + 42 = 442$ listed spaces; note EV-ready spaces may overlap with car inventory |
| Land area            | 6.42 acres $\approx$ 25,978 sq. m. using the standard acre conversion                         |
| Transaction          | ■1.225 crore base consideration + other listed components                                     |
| Project dates        | Completion Dec 2028 precedes possession target Mar 2029                                       |
| Open action          | Safety audit item target date 10 Aug 2026 should be checked against report date               |

The parking line deliberately tests whether the platform can distinguish additive categories from overlapping attributes. The safety action line tests temporal reasoning.

### 39. Document Metadata and Test Notes

| Metadata            | Value                                                           |
|---------------------|-----------------------------------------------------------------|
| File name           | Real_Estate_Property_Test_Document_40_Pages.pdf                 |
| Document type       | Synthetic real-estate property dossier                          |
| Nominal page count  | 40                                                              |
| Language            | English                                                         |
| Primary geography   | Balasore, Odisha, India                                         |
| Currency            | Indian Rupee (INR)                                              |
| Measurement systems | Metric + acres + mixed real-estate units                        |
| Synthetic data      | Yes — all substantive property data is fictional                |
| Recommended use     | Extraction, OCR, RAG, search, classification, entity resolution |

**Recommended automated validation:**

- 1. Extract all property identifiers and verify they remain consistent across pages.
- 2. Identify every monetary amount and normalize crore/lakh/rupee formats.
- 3. Extract all dates and classify them as historical, current, target, or future.
- 4. Extract all areas and convert between acres and square metres where possible.
- 5. Identify all people, organizations, units, approvals, and document references.
- 6. Detect the intentionally overlapping parking categories and the open safety action.
- 7. Build a property knowledge graph linking developer → project → land → towers → units → transactions → approvals.
